## SUMMARY

Experienced Fullstack Developer with a 6+ years strong background in PHP and Node.js. Proven ability to optimize project outcomes through strategic project management and effective team leadership. Seeking a challenging role to leverage technical expertise and enhance development projects.

## WORK EXPERIENCE

<b>Senior Backend Developer - EMAPTA / Custodia</b>	<b>2024 - Present</b>
<ul style="list-style-type: none"><li>As a Senior Laravel Developer at EMAPTA for Custodia, I led scalable and secure web application development. I ensured seamless integration between backend architecture and frontend systems. I also have experience with Node.js.</li></ul>	
<b>Senior Web Developer - 30000feet AU</b>	<b>2023 - 2024</b>
<ul style="list-style-type: none"><li>At 30K FT, a cargo tracking company, I work as a Senior Backend Developer specializing in Node.js. I build resilient, scalable systems for real-time logistics, ensuring secure and efficient cargo data flow for actionable insights.</li></ul>	
<b>Senior Fullstack Developer - Arcanys / Censeo</b>	<b>2022 - 2023</b>
<ul style="list-style-type: none"><li>At Arcanys, I work for Censeo.ch as a Senior Backend Developer, specializing in Node.js. I build secure, scalable systems for mortgage financing, financial planning, and client advisory workflows, ensuring seamless data handling and integration with banking and insurance APIs.</li></ul>	
<b>Senior Fullstack Developer - Summit Media</b>	<b>2021 - 2022</b>
<ul style="list-style-type: none"><li>At Summit Media, a leading publishing company, I led a solo project using Node.js to streamline workflows and automate daily tasks. This initiative provided editorial, marketing, and admin teams with custom tools that enhanced efficiency, data accuracy, and collaboration.</li></ul>	
<b>Mid Web Developer - VeritasPay</b>	<b>2020 - 2021</b>
<ul style="list-style-type: none"><li>At VeritasPay, a leading fintech company specializing in payment processing and merchant solutions, I worked as a Mid-Level Web Developer focused on building and maintaining secure, scalable web applications. My role involved developing internal tools and client-facing platforms using C#.NET and Angular, ensuring smooth transaction workflows and system reliability.</li></ul>	
<b>Mid Web Developer - Spark Global Tech</b>	<b>2020 - 2020</b>
<ul style="list-style-type: none"><li>At Spark Global Tech, I was a Mid-Level Web Developer specializing in Laravel applications, developing custom software solutions and supporting junior developers.</li></ul>	
<b>Junior Web Developer - iConnect Guam</b>	<b>2019 - 2020</b>
<ul style="list-style-type: none"><li>At iConnect Guam, I worked as a Junior Web Developer, supporting internal systems for transactions, customer management, and reporting. I gained experience in Laravel and PHP, collaborating with senior developers on reliable financial tools.</li></ul>	

---
